Dear Parent / Guardian

As an element of IST's extra-curricular programme, IST will be offering a Basketball Club as described below. This Club will still be educational in nature and in purpose, and thus will fulfil a number of functions, and I would urge you to allow your child to participate. Please note that we believe your child should make a commitment and by signing up for the Club, s/he is committing to attend and to participate fully for the entire "season". There may also be activities off the IST campus in connection with this Club and should these occur, you will receive a Trip Permission letter each time.

Some of the Clubs are designated as performance / competitive and the Club's activities work towards playing matches, or a show or recital. Others are designated as recreational / non-competitive and the Club's activities are important in and of themselves. In the case of the former, you will receive details of the competition or performance as they become available.

Please detach, sign and return the attached Commitment and Permission Slip retaining this letter for your records.
